

Smart Protection Pack

Autopia ↑

All-round protection for your car... inside and out.

An all-round protection pack to help preserve your car's exterior and interior, glass, tyres and wheels — including ceramic window tint.

ECO Exterior Paint Protection

Offers a more sustainable way to protect your car's exterior, resulting in extreme hardness and resistance. ECO with graphene delivers super hydrophobic properties creating an easy-clean, low maintenance surface, engineered with nanotechnology to produce distinctive beading which rolls off the surface.

ECO Interior Protection

Creates a barrier against UV damage and staining, so fabric, carpet, vinyl and leather surfaces are protected against discolouration, spills and stains.

Ceramic Window Tint

Introducing the latest in ceramic technology, 100% metal free window film, delivers significant protection against harmful UVA and UVB rays and dramatically reduces heat in the cabin, therefore reduces air-con usage.

Ceramic window tint also delivers outstanding glare reduction and ultimate privacy, with the added safety bonus of the vehicle's glass holding together in the event of an accident.

Truseal Tyre, Wheel & Glass Protection

Ceramic Alloy Wheel Protection: delivers extreme durability, locks in that factory finish and protects against future UV damage and fading.

Tyre Protection: adds a durable deep satin finish, is silicon free and offers a flexible protective barrier against harmful UV rays.

Glass Protection: increases visibility on your windscreen, creating a highly durable layer between glass and the elements.

Exterior & interior

Graphene paint protection plus a barrier on fabric, vinyl and leather.

Ceramic window tint

Metal-free film for less heat, less glare and 99% UV rejection.

Tyres, wheels & glass

Locks in the factory wheel finish and keeps the windscreen clearer.
