

What is a novated lease?

A novated lease is one of the most convenient and cost effective ways to buy and run a car.

It's a car finance lease attached to a 'novation agreement' that allows you to salary package a car, reducing your income tax and saving GST.

In addition to the actual car finance, you're also able to salary sacrifice a car's running costs, such as insurance, petrol, servicing, tyres and roadside assistance – so these costs become packaged into your salary too, reducing your income tax even further.

You

Lease a vehicle with our help

Autopia

Invoices all expenses to your employer

- Finance
- Fuel
- Insurance
- Service, tyres & maintenance
- Road side assistance
- Registration & CTP

Your Employer

Deducts most of the cost from your pre-tax salary

Autopia's Novated Leasing program

Autopia was founded on a love of cars and built on novated leasing. We know how to achieve greater tax savings for our customers, and we've been doing it since 2004.

Our consultants are car lovers who combine their vehicle, finance and tax expertise to get you not only the best car deal but a novated lease tailored to suit your needs.

We save you money every year!

Just by salary packaging a car with a novated lease from Autopia, our average driver:

- ▶ **save** thousands on the purchase price
- ▶ **save** GST on the purchase price and all running costs
- ▶ **save** \$7,729* or even more every year
